

Speech Recognition HyperSprint

You deliver the audio. We'll deliver the insight. Powered by Machine Learning

Imagine the eye-openers if you were to analyze all your company's audio files - at once. We can bring you that insight, all in one integrable dashboard! In this HyperSprint we'll apply the latest machine learning techniques to transcribe and analyze your audio and video recordings.

The 10-day HyperSprint process

Setting the scene
Review audio/video recordings
